

The National Institutes of Health (NIH) is seeking applications for its "HIV/AIDS High Priority Drug Abuse Research" to stimulate high priority research relevant to drug misuse and HIV/AIDS.

Central to the NIH high priority areas of research are principles such as engaging people at risk into screening and preventive services as well as linking and re-linking people living with HIV (PLWH) into care with the goal of achieving durable viral suppression and addressing HIV comorbidities. Basic and clinical research that moves the field toward a cure and development of vaccines are high priority areas of research.

### **Funding Information**
